From Milan to Aquil Terme, then on to San Margherita and our final destination of Stresa, our 2013 Splendors of Italy trip proved to be our best trip ever. Jeff and I couldn't be happier that so many of our customers were able to join us and had such a good time. We thank you for your feedback and suggestions for the next trip. I've copied some of the feedback below. Already we are brainstorming to see how we will be able to top it for the 2015 tour.

Eurotech's Splendors of Italy Trip

"I tried and tried to think of some sort of suggestion (as you requested) for the next trip but you guys planned the entire trip perfectly. I'm straining my brain. I got nothing – everything was so easy and prearranged for us. It was a pure joy and I feel honored to meet such a special group of people. Grazie!" -Troy & Katie Jones of Accratronics
