**IMTS Price
Special!!**

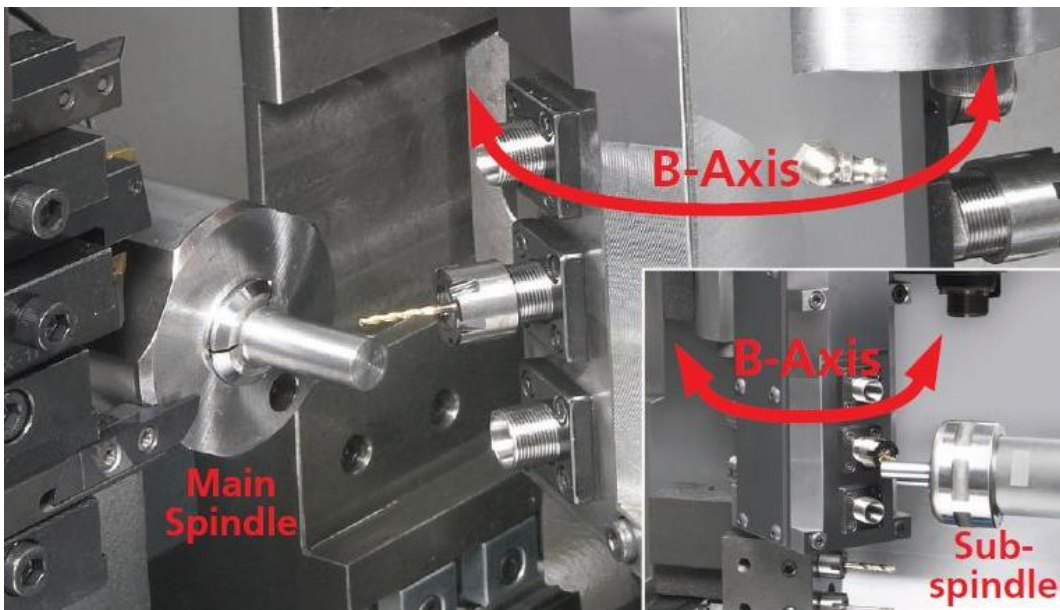

\$389,900.⁰⁰

MAIN SPECIFICATIONS:

- Sturdy cast iron casting with hardened and ground box-type guide-ways to assure best rigidity and vibration **damping**
- Hand scraped turcite coated guide-ways for superior accuracy and life
- Powerful main spindle motor (40 hp) to allow the optimum chip removal for any machining conditions
- Large capacity: 4" bar or 15" chuck
- 49.6 turning length
- Integrated turn/mill on the B-axis, with 210° rotation range ($\pm 105^\circ$)
- Locking into machining position by HIRTH-couplings of both B-axis unit and spindle unit for turning
- Large Y-axis travel of 8.26"
- Optional powerful sub-spindle (34 hp) completes the turning and milling of the back side of the part (in lieu of tailstock)

SWISS TURN

10 Axis Swiss Type Auto Lathe: Blitz 16 SY2

INCLUDES:

- Fully programmable B-axis slide to machine on main or sub spindle
- Dual Y-axis is capable of pinch turning or milling on main or sub
- Up to 27 cutting tools
- 11 live tools
- C-axis on main and sub
- Chip Conveyor
- Convertibility Kit (Guide bushing/No Guide bushing)

**IMTS Price
Special!!**
